RULES

- Please be understanding, as Rules are constantly evolving.
- Interpretation and enforcement of rules are at the sole discretion of AE Tech Officials. Excessive or unauthorized mods may result in bumping the vehicle up to the next age range, or disqualification.
- Re-Releases are permitted in all classes.
- LiPo's must have hard cases and be stored/charged in product-specific safety equipment.
- 2.2" wheels need to use control JConcepts tires, according to the chart in this document. Less than 2.2" wheels may use any tires. In all cases, tire sauce is prohibited, as well as modifications that alter tire size. Racers may use any tire inserts, regardless of wheel size.
- "Stock" (in Rules below) means the type of component the vehicle originally came with. "STOCK" classes don't permit aftermarket versions of original vehicles or conversion vehicles. Please refer to the Class/Vehicle lists for details.
