Team Associated is excited to continue our partnership with Hoonigan® to bring you their world-famous Hoonicorn in radio-controlled form. Built on an all new Apex2 chassis, the new Team Associated Hoonigan® Hoonicorn is a tire-slaying beast!

The engineers at Team Associated spent countless hours capturing many of the details synonymous with the 1965 Ford Mustang Hoonigan Hoonicorn. Features including officially licensed American Racing VF503 Wheels, rear diffuser, molded intake and turbos, scale brake rotors, and more!

HIGHLIGHTS

HOONICORN

APEX2

1/10 SCALE 4WD ON ROAD READY-TO-RUN

2.5mm thick G-10 chassis for increased durability and performance

Threaded, oil-filled shocks smooth out the bumps when ripping down the tarmac and shredding tires

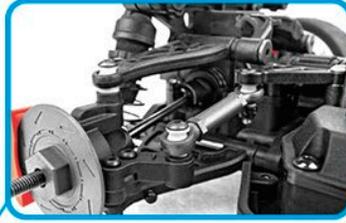

The Apex2 chassis is equipped with metal ring and pinion gears for long-lasting durability that can handle tire-slaying burn-outs

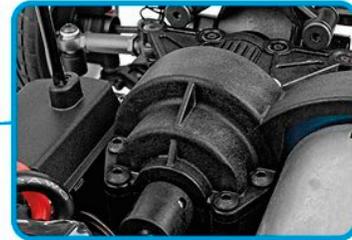

For better handling, A-arm front and rear independent suspension keeps the Hoonicorn under control during the wildest of driving conditions

Officially licensed Hoonigan 1965 Ford Mustang Hoonicorn body

Active rear suspension allows the amount of toe change to be adjusted through the suspension cycle, increasing or decreasing rear grip

A sealed center driveline keeps dirt and debris out—along with bits of tire rubber—for smooth and reliable power delivery

Reedy Sport 550 15-turn 3-slot brushed motor

Reedy SC500X programmable brushed ESC (program card sold separately)

Due to ongoing R&D, photos may not match final kit. Vehicle shown on these pages equipped with items NOT included in #30124: battery and charger.
