

For Immediate Release. May 8, 2024

#30137 Apex2 Hoonicorn Builder's Kit

ELECTRIC ▪ ON ROAD ▪ 1:10 SCALE ▪ 4 WHEEL DRIVE ▪ KIT

Team Associated is excited to continue to partner with Hoonigan. Built on an improved updated Apex2 chassis, the Team Associated Hoonigan car kits are tire-slaying beasts!

The Apex2 chassis has been updated from our previous version with the latest features in on-road racing and a more durable 2.5mm thickness chassis.

A front and rear independent suspension with oil-filled, aluminum threaded shocks and active rear toe give the Apex2 kit the ultimate in handling on uneven tarmac. This makes it a perfect platform for any Hoonigan wanting tire-slaying action!

HIGHLIGHTS

APEX2 HOONICORN

Front and rear adjustable sway bars.

Factory Team adjustable blue turnbuckles.

A sealed center driveline keeps dirt and debris out along with bits of tire rubber for smooth and reliable power delivery.

The Apex2 chassis is equipped with metal ring and pinion gears for long-lasting durability that can handle tire-slaying burn-outs.

A-arm front and rear independent suspension keeps the Hoonigan kit under control during the wildest of driving conditions.

Threaded aluminum oil-filled shocks smooth out the bumps when ripping down the tarmac and shredding tires.

Due to ongoing R&D, photos may not match final kit. Vehicle shown on these pages equipped with items NOT included in kit: Reedy motor, battery, ESC, servo, receiver, and pinion gear. Assembly and painting required.

MORE FEATURES

- Factory Team oil-filled, aluminum threaded shock bodies
- Factory Team front universals
- Factory Team adjustable blue turnbuckles
- Front and rear adjustable sway bars
- G10 2.5mm chassis
- Center aluminum differential spool
- Sealed front and rear differentials
- Adjustable hook and loop battery straps
- Injection-molded brake calipers and rotors
- Aluminum motor plate
- POM-filled injection-molded pivot balls
- Sealed rubber ball bearings
- Steel ring and pinion gears
- Adjustable shock mounting positions
- Front and rear independent suspension
- Fully detailed replica body

SPECIFICATIONS

Scale	1:10
Power	Electric
Length	458mm (108")
Width	190mm (7.5")
Weight	Varies
Wheelbase	259mm (10.2")
Axle Ratio	2.6:1

ITEMS NEEDED TO COMPLETE

- 1:10 scale 540-size electric motor (Reedy 540-SL4 3300KV #907)
- 1:10 scale electronic speed control (Reedy SC600-BL Sensorless Brushless ESC #29185)
- 2-cell LiPo radio-controlled car "shorty" battery pack
- Radio control battery charger (Reedy 1416-C2L Dual AC/DC Charger #27203)
- 2-channel RC car surface transmitter
- 2-channel receiver
- Steering servo (Reedy 1514MG Digital Metal Gear Servo #27111)
- Pinion gear (48 pitch)
- Other helpful items: Silicone Shock Fluid, Silicone Diff Fluid, Body Scissors (#1737), Reamer (#1499) / Hole Punch, FT Shock Multi-Tool Pliers (#1681), FT Wrench Set (#1519), Hobby Knife, Needle Nose Pliers, Wire Cutters, Soldering Iron, Calipers or a Precision Ruler
