## Apex Scion Racing FR-S GReddy LiPo Combo

## Apex Scion Racing FR-S GReddy Drift Version LiPo Combo

Brushless Powered All-Wheel-Drive Ready-To-Run

Built on the all-wheel-drive Apex chassis, the Scion Racing GReddy FR-S replica comes fully assembled and Ready-to-Run with factory-installed Reedy brushless power. Additional features include the XP water-resistant speed control and XP 2.4GHz radio system. The front and rear sealed metal gear differentials are connected together with a tough aluminum drive shaft that handles all of the Reedy brushless power. Imperfections in the road are managed by four adjustable fluid-filled, coil-over tuned shocks.

The high-grip treaded racing tires are mounted on scale replica 10-spoke hex drive wheels featuring detailed brake rotors and calipers while the #30113DC features hard plastic drift-style tires. Topping it all off is the factory-finished Scion Racing FR-S Rocket Bunny Aero Kit body.

The new #30113C and #30113DC LiPo Combos include the Reedy 423-S 35W Compact Balance Charger (#616) and WolfPack LiPo 3300mAh 30C 7.4V Battery (#751).

Scion Racing FR-S Rocket Bunny replica body

#30113: & 30113C: 10-spoke wheels with high-grip racing tires. #30113D & 30113DC: with hard plastic drift style tires.

Front and rear sealed metal gear differentials and tough aluminum drive shaft

XP metal-gear steering servo

Adjustable fluid-filled shock absorbers

XP 2.4 GHz radio system

Reedy 3300KV brushless motor

#616 423-S Charger and #751 LiPo Battery are included

### Apex Scion Racing FR-S & FR-S Drift RTR LiPo Combos Features:

- Reedy 423-S 35W Compact Balance Charger (#616)
- WolfPack LiPo 3300mAh 30C 7.4V Battery (#751)
- Fully assembled Ready-To-Run all-wheel-drive chassis that accepts NiMH or LiPo type batteries
- Scion Racing FR-S Rocket Bunny replica body
- 10-spoke wheels come mounted with high-grip racing tires and feature detailed brake components while Drift versions feature hard plastic drift style tires
- Powerful Reedy 3300kV 540 brushless motor
- Water-resistan brushless speed control with High Current T-plug Connector (2S-3S LiPo compatible)
- XP 2.4Ghz radio system with XP metal-gear steering servo
- Adjustable fluid-filled, coil-over tuned shock absorbers
- All-metal gear transmission with sealed differentials
- Steel CVA drive axles front and rear
- Metric hardware and ball bearings throughout

### Apex Scion Racing FR-S & FR-S Drift RTR LiPo Combos Specifications:

Scale	1:10
Power	Electric
Length	438mm
Width	190mm
Weight	1760g
Wheelbase	259mm
Drive	4WD

Items required for operation: six (6) AA batteries.
