

IFS

INDEPENDENT FRONT SUSPENSION CONVERSION KIT

NO IFS, ANDS, OR BUTS ABOUT IT. When it comes to **scale realism and modern four-wheel-drive vehicles**, an independent front suspension is the way to go.

Designed as a **direct bolt-on for the Element RC Enduro chassis**, this IFS conversion kit is **the perfect scale accessory**. It features injection molded upper and lower a-arms with optimized ball cups for a fluid suspension articulation. The high-clearance steering incorporates an aluminum swing rack and steering plates for durability and a more precision feel. Built with durability and performance in mind, the Element RC IFS Conversion Kit will make your Enduro stand out on the trail.

STEERING RACK: The included aluminum swing rack and steering plates give the IFS suspension a precise, solid feel.

STEERING BLOCKS: 100% compatible with steering blocks from previous Enduro chassis and allows up to 45° of steering.

SUSPENSION: Injection molded upper and lower a-arms and optimized ball cups provide maximum suspension articulation.
