

EARLY RC10 BUGGY

We still have the original buggy used on the box cover, but the wing is missing. Here are several recent photos for those who want to paint the body to match the original.

The Reedy motor department focused on modified motors back then. With so many different products in this brand line, we dropped "Modifieds."

Notice the old style AE logo. [Link to books.](#)

"Roger Curtis" was the buggy's designer.

Note the details of the screen.

Chris "Chan" designed the box layout.
