

For Immediate Release: February 19, 2016

New! Reedy SC1000-DB Dual-Battery Sensorless Brushless ESC

The all-new Reedy SC1000-DB Brushless ESC is splash-proof for maximum durability. Its robust design installs in most 1:8 buggies, truggies, and monster trucks. The latest electronics technology along with the engineering experience that is responsible for 30 World Championship titles has been incorporated into its design.

It comes pre-wired for two batteries and features individual low voltage cutoff circuits for protection from over-discharge and improved safety. When paired with Reedy brushless motors, a potent combination of power and efficiency is created, resulting in quick acceleration, high top speeds, generous run times, and more fun!

Features

- Dual LiPo low-voltage cutoff protection
- Fully proportional brakes
- Durable case with aluminum heat sink
- Pre-wired cooling fan
- Water-resistant
- Heavy-duty silicone wires
- Low-resistance T-plug connectors
- 4.0mm motor connectors

Specifications

Cells	2S LiPo (x2), 5- or 6-cell NiMH (x2)
Applications	Dual battery 1:8 Buggy, Truggy, and Monster Truck
Resistance	0.0005 ohm
Brakes	Proportional
Motor Limit	2600kV
Reversible	Yes
Low-Voltage Cutoff	Dual with Cell Auto-Detect
Dimensions (mm)	110.7x 69.4 x 40.5
Weight (g)	176
Power Wires	12-gauge silicone
Connector	Battery: T-plug (x2). Motor: 4.0mm sockets.
