

For Immediate Release: March 1, 2016

KICKER KPw Bluetooth® Speakers **RC10.com Exclusive**

On-the-go Portable Wireless Speaker to stream your favorite music in any location. The KICKER KPw is a water-resistant, Bluetooth® speaker system designed for portability without compromising on sound quality.

- **Bluetooth-enabled** — Bluetooth wireless connection from almost any enabled device.
- **Easy Gripping!** — Reinforced, durable build includes metal grilles and rubber guides for easy gripping.
- **Hours of Play** — Rechargeable Lithium battery for nearly 10 hours of play.
- **Water-resistant** — The KPw is water-resistant, rated to IPx5. You can get it wet and wash it off, but it is not a floater for your pool.
- **No Hands!** — Hands-free speakerphone functionality for answering calls. The KPw will allow you to answer incoming phone calls and communicate with the built-in microphone
- **Impressive Sound** — Features a pair of robust drivers and bass radiators, with digital signal processing for impressive audio response. Use it anywhere tunes are desired.
