

For Immediate Release: January 8, 2019

New! Reedy Zappers SG2 Competition HV-LiPo Batteries

All-new Reedy Zappers SG2 HV-LiPo batteries are in stock and ready to ship! Zappers SG2 batteries continue to utilize silicon-graphene construction but with an emphasis on reducing internal resistance and increasing cycle life. More power, improved durability, and high capacity provide world-class performance make Zappers SG2 the ultimate choice for 1:10 and 1:12 class racers.

Zappers SG2 batteries feature a 7.6 nominal voltage, meaning that with a suitable charger, the battery can be safely charged to 4.35V/cell. It is not a secret that more voltage equals more power, so there is no easier way to achieve a performance advantage than a higher charge voltage! However, even when the typical 8.40V (4.2V/cell) charging limit is enforced, Zappers SG2 still offers a significant advantage thanks to a flatter discharge curve, which results in more voltage deeper into the race.

Zappers SG2 batteries are available in low-profile (LP) stick and shorty versions as well as a 1S version designed for 1:12 and other classes that require 1S batteries. A high quality, durable hard case helps prevent damage while embedded socket connectors keep power-robbing resistance to a minimum. Male ESC connectors are included.

LiPo battery technology continues to progress and Reedy is proud to bring improved performance to the masses.

Features

- Silicon Graphene HV-LiPo chemistry
- Reduced IR with higher average voltage
- Maximum durability and cycle-life
- Durable hard case with low-resistance connectors
- Built to ROAR/EFRA/BRCA/IFMAR specifications

Specifications

Model Number	27333	27334	27335	27336	27337	27338	27339	27340
Capacity	8200mAh	6000mAh	4800mAh	5800mAh	3600mAh	4100mAh	6600mAh	8200mAh
Voltage	7.6V (2S)	7.6V (2S)	7.6V (2S)	7.6V (2S)	7.6V (2S)	7.6V (2S)	3.8V (1S)	3.8V (1S)
