New! Reedy HV Digital Brushless Servos

Reedy's HV Digital Brushless Servos are race-proven and engineered for use in competition-level RC cars and trucks. Powerful brushless motors create incredible torque and speed while an advanced microprocessor provides precision vehicle control.

The precision gear set is designed for strength and durability while the integrated aluminum mid-case reduces operating temperatures for fade-free operation. The RT2706A features an all-aluminum case to stand up to the performance demands of 1:8 racing.

High voltage compatibility and multiple configurations make Reedy's HV Digital Brushless Servos the logical choice for a variety of racing classes and skill levels.

Features

- Multiple configurations
