

For Immediate Release: February 5, 2019

New! Reedy Sonic S-Plus “Torque” Motors

Select versions of Reedy’s Sonic S-Plus motors are now available featuring a unique high-torque stator. These high-torque models are perfectly suited for high-grip on- and off-road conditions and tracks with short run-ups to critical jumps.

Both 17.5 and 21.5 versions are available as well as an all-new 10.5 version. The current S-Plus 13.5 motor is already equipped with the high-torque stator and remains unchanged.

Visit www.reedypower.com for a complete list of tuning rotors, replacement/option parts, and detailed specifications.

Features

- CNC-machined lightweight can
- High-torque stator
- High-strength, balanced rotor
- Silver plated solder tabs
- Precision ball bearings
- Optimized air cooling
- Adjustable timing
- Competition proven
- ROAR approval pending

Specifications

Cells	1-2S LiPo
Diameter (mm)	35.8
Length (mm)	50.4
Shaft Diameter (mm)	3.15
Weight (g)	152
