## New! Reedy Zappers SG3 Competition 2S HV-LiPo Batteries

New for 2020, Reedy Zappers SG3 HV-LiPo 2S batteries are in stock and ready to ship! Zappers SG3 batteries feature state-of-the-art LiPo chemistry with an emphasis on lower internal resistance with improved durability and cycle-life. More power, improved durability, and high capacity provide world-class performance, making Zappers SG3 the ultimate choice for those who are serious about winning.

Zappers SG3 batteries feature a 7.6 nominal voltage, which means that the battery can be safely charged to 4.35V/cell. It is not a secret that more voltage equals more power so there is no easier way to increase power and top speed than a higher charge voltage! Even when the typical 8.40V (4.2V/cell) charging limit is enforced, Zappers SG3 cells shine thanks to their inherently flat discharge curve, which results in higher voltage deeper into the race.

Zappers SG3 batteries are available in several configurations for a variety of on-road and off-road applications. A high quality, durable hard case helps prevent damage while embedded socket connectors keep power-robbing resistance to a minimum. Male ESC connectors are included.

LiPo battery technology continues to progress and Reedy is committed to bringing improved performance to the masses.
