

For Immediate Release: February 13, 2020

# NEW! Precision Ground Diff Drive Rings

The Factory Team Precision Ground Diff Drive Rings are a great option part for those who want the best ball diff possible. The precision comes from a flatter, tighter tolerance diff ring that will result in smoother diff operation and longer life, therefore increasing time between rebuilds.

### Features

- Tighter tolerances
- Smoother surface finish
- More precise diff operation
- Longer life
- Direct upgrade for #7666 Diff Drive Rings
- Fits RC10B4-B6 series, SC5M and SC6.1, RC10T4.1-T6.1 series, and all SC10s using ball diffs
