

For Immediate Release: March 11, 2024

New! Factory Team Tire Adhesive

Based on feedback from the race team, we have improved on the formulation of our popular Tire Adhesive. This new glue is slightly thicker, allowing for more control when applying it, but still has a fast drying time. New packaging includes applicator tip and pin-in-cap bottle top. Comes in a ¼ ounce bottle.

This formulation replaces our #1597 Tire Adhesive.
