For Immediate Release: April 4, 2024

New! Reedy SC600-BL2 ESC & BL2 Program Card

The Reedy SC600-BL2 Brushless ESC is fully programmable using the on-board SET button or optional BL2 Program Card to extract maximum performance and waterproofing for improved durability. The latest electronics technology along with the design and engineering experience that is responsible for 30 World Championship titles has been incorporated into its design.

Its robust design installs in most 1:10 vehicles including buggies, stadium trucks, 2WD and 4WD short course trucks, monster trucks, and touring cars. When paired with Reedy brushless motors, a potent combination of power and efficiency is created, resulting in quick acceleration, high top speeds, generous run times, and more fun!

Features

- Programmable performance functions
- LiPo cell auto-detection
- Fully proportional brakes
- Durable case with aluminum heat sink
- Pre-wired cooling fan
- Waterproof
- Heavy-duty silicone wires
- Low-resistance T-plug connector
- 3.5mm motor connectors
- Optional BL2 Program Card

Programmable Functions

Running Mode
Select between Forward/Brake or Forward/Brake/Reverse modes.

Drag Brake Force
Adjust the automatic braking force generated by the motor when the throttle trigger is returned to neutral position.

Low Voltage Cutoff
Use to prevent excessive discharge of lithium batteries which can damage them permanently.

Punch Control
Change throttle response depending on the vehicle being used and the surface being driven on.

Max. Brake Force
Adjust the percentage of available braking power when full brake is applied.

Reedy SC600-BL2 ESC & BL2 Program Card

Specifications

Feature		Specification
Cells		2-3 LiPo
Suggested Applications		1:10 Buggy, Truck, Monster Truck, and Touring Car
Continuous Current		60A
Brakes		Proportional
Motor Limit	2S LiPo	6000kV
	3S LiPo	3500kV
Reversible		Yes, F/B or F/B/R mode
Low Voltage Cutoff		Yes, with Cell Auto-Detect
Dimensions (mm)		46 x 36.5 x 35.5
Weight		98.2g
Power Wires		13-gauge silicone
Programming Method		SET button, LED Program Card
Connector		Battery: T-plug. Motor: 3.5mm sockets.

UPC	Part No.	Description	MAP	MSRP	Available
