

For Immediate Release: April 30, 2021

NEW! RC8B3.2, RC8T3.2 LRC Arm Mounts

#81486 RC8B3.2 FT LRC Arm Mount C, narrow

#81487 RC8B3.2 FT LRC Arm Mount D, narrow

Tune your buggy or truck to have increased rear grip and reduced turn-in with new low roll center (LRC) rear arm mounts! By lowering the pill insert position by 1mm on both the C and D mounts, turn-in is reduced and rear traction is increased when exiting corners.

C mount

D mount

Gray outlines show stock RC8B3.2 mounts. Color versions show new mounts with lowered pill insert positions.

Features:

- CNC-machined billet aluminum, blue-anodized finish
- Helps improve rear traction on low-grip surfaces
- Laser etched to distinguish from the kit parts
- Fits: RC8B3.2, RC8B3.2e, RC8T3.2, and RC8T3.2e
