## New! Reedy Low-Profile Titanium Gear Brushless HV Servos

Reedy's all-new Low-Profile Titanium Gear Brushless HV Servos are now available and include a variety of performance features intended for competition! Precision titanium gears add strength, reduce weight, and provide silky smooth operation. A powerful brushless motor produces a combination of lightning quick speeds and maximum torque while an advanced microprocessor improves vehicle control and enhances driver feel. State-of-the-art CNC-machined aluminum case with integrated fins increases rigidity to ensure consistent driving feel while lowering operating temperatures for fade-free operation. Two options, high speed or high torque, are available to suit a variety of on- and off-road applications and driver preferences.

Visit [www.reedypower.com](http://www.reedypower.com) for a complete list of Reedy motors, batteries, electronic speed controls, servos, and accessories.

### Features

- Ultra-precise titanium gears
- Full aluminum low-profile case
- Powerful brushless motor
- Waterproof construction
- Dual ball bearings
- High-voltage compatible

### Specifications

Model	RS1606A	RT2007A
Part #	27154	27155
Input (V)	4.8 – 8.4	4.8 – 8.4
Motor	Brushless	Brushless
Speed (sec/60°)	6.0V	.070
	7.4V	.065
	8.4V	.058
Torque (kg-cm/in-oz)	6.0V	13/180
	7.4V	14.5/201
	8.4V	16/222
Dimensions (mm)	40.8x20.2x26.5	40.8x20.2x26.5
Weight (g)	57.2	57.2
Spline	25	25
