

For Immediate Release: May 25, 2021

New! More FT Carbon Fiber Composite Option Parts

#91879 RC10B6.3 FT Side
Rails, carbon

#92301 RC10B74 FT
Gearbox, carbon

#92302 RC10B74.1 FT Rear
Hubs, carbon

#92303 RC10B74 FT Side
Rails, carbon

Team Associated is pleased to offer a few more parts added to the new line of carbon fiber composite option parts for the RC10B6.3, RC10T6.2, RC10SC6.2 and RC10B74.1 (also previous generation models). Impregnated with rigid and light carbon fibers inside the injection molded material, these Factory Team parts are the ultimate in high performance.

- **Lightweight** – Approximately 12% weight savings over “hard” material.
- **Extreme Rigidity** – More predictable handling in high traction applications and increased vehicle stability in fast corners.
- **Improved Durability** – Significantly improved strength over “hard” option parts.
- **Fits:** #91875 – RC10B6, RC10T6, RC10SC6 series. #91876, #91879 –RC10B6.3. #92301, #92303 – RC10B74.1. #92302 – RC10T6.2, RC10SC6.2, RC10B74.1.

Look for future Factory Team releases as Team Associated plans to produce several more molded parts in this amazing material! New “carbon fiber” material parts will replace “hard” material parts.

UPC	Part No.	Description	MSRP	MAP	Available
