

For Immediate Release: June 15, 2020

Reedy RT2207A Digital HV Aluminum Competition Servo

BACK IN STOCK AND SHIPPING

Reedy's RT2207A Digital HV Aluminum Competition Servo is back by popular demand with a reduced MSRP and upgraded motor!

An all-aluminum case reduces operating temperatures while increasing rigidity and strength. Durable precision metal-gear drivetrain and advanced microprocessor improve vehicle control and on-track performance. High voltage compatibility allows the use of 2S LiPo RX batteries, resulting in high speeds and maximum torque.

Each servo comes with aluminum mounting hardware and an aluminum clamping servo horn. A standard aluminum servo horn is available separately and fits all Reedy servos.

Powerful motors, reliable electronics, and a variety of models to suit most applications make Reedy's HV Digital Competition Servos the logical choice for the serious racer or casual enthusiast.

Features

- Water and dust resistant
- Full aluminum case
- Powerful coreless motor
- Ultra-precise metal gears
- Dual ball bearings
- High-voltage compatible
- Clamping aluminum horn included
