

For Immediate Release: July 30, 2024

New! RC8B4.1 FT Rear Suspension Arm Inserts, Carbon

#81668 inserts installed on the RC8B4.1 rear suspension arm

The Factory Team 2.0mm carbon fiber inserts mount to the RC8B4.1 rear suspension arms to add torsional stiffness for more predictable grip in high traction. Each package of inserts comes with two symmetrical carbon fiber inserts and 8 pcs. M2.5x6 button head mounting screws.

Features:

- Two inserts of 2.0mm CNC routed carbon fiber custom profiled to fit RC8B4.1 rear suspension arms
- Four M2.5x6 BHCS fasteners per insert included
- Adds torsional stiffness for high-grip surfaces
- Fits RC8B4.1 and RC8B4.1e
