## Enduro Portal Axle Conversion Kit

# 40128

1:10 SCALE ■ CONVERSION KIT

**Ask and you shall receive.** Here at Element RC, we strive to bring you products that you want. So, we bring you the new high-clearance portal axle kit. These new portal axles include all metal gears, ball bearings, and a new larger pocket for a heavier-duty inner input bearing. With almost an inch more clearance than our standard straight axles, these axles are a perfect fit for any comp or trail rig. Your journey begins here!

These axles are a direct replacement for most 1:10 scale crawlers and trail trucks.

## FEATURES

### High Clearance

With almost an inch of center axle clearance over standard straight axles, getting over tough obstacles is a breeze.

### Optional Gears

Available separately, the 12/23 gear set offers approximately 36% underdrive for serious rock crawler addicts.

### Larger Input Bearing

For added support, the larger inner input bearing is now standard on all Enduro axles.

### Universal Axles

Our portal axles can be used on the front with behind-the-axle steering in either servo-on-axle or a chassis-mounted servo setups in the rear with adjustable rear toe lockouts, or as a rear steer axle for the ultimate hardcore rock crawling rig.

## MORE FEATURES

- Compatible with both chassis-mounted servo and axle-mounted servo setups
- Adjustable caster
- Adjustable rear toe
- Steel pivot balls
- Universal drive axles
- Aluminum steering plates
- Metal gears throughout
- 24 metal ball bearings

## ITEMS NEEDED TO COMPLETE

- Any 1:10 scale Element RC Enduro truck RTR.
- Tools: 2.0 mm hex driver (#1501), 1.5 mm hex driver (#1500)
