

For Immediate Release: August 30, 2021

New! 5- and 6-hole 16mm Shock Pistons

#81201, x4
5-hole, flat

#81202, x4
6-hole flat

#81206, x4
5-hole, tapered

#81207, x4
6-hole, tapered

New flat and tapered Factory Team 16mm shock pistons for RC8B3 and RC8T3 series 16mm shocks are available now! Machined from high quality Delrin®, they add more tuning options to dial in suspension settings.

Flat pistons have equal compression and rebound, making them ideal on smoother surfaces.

Tapered pistons have less resistance when the shaft is traveling in the direction of the taper angle. If the taper angle is set down, the piston will have less resistance in rebound and more resistance during compression. This makes tapered pistons more ideal on rough surfaces.

Fits: 16mm shock bodies for the RC8B3.2, RC8B3.2e, RC8T3.2, RC8T3.2e, and other 1:8 vehicles.

Pro Setup Tip:

The piston holes can be drilled to larger diameters for even more tuning options:

	Emulsion Shock Cap	Bladder Shock Cap
RC8B3.2 / RC8B3.2e	Front: 5x1.3 Rear: 5x1.4	Front: 5x1.5 Rear: 3x1.5 + 2x1.6 (5 holes)
RC8T3.2 / RC8T3.2e	Front: 6x1.3 Rear: 6x1.4	Front: 6x1.3 Rear: 4x1.3 + 2x1.4 (6 holes)

Above: 3x1.5 + 2x1.6 means 3 of 5 holes are 1.5mm, and 2 of 5 holes are 1.6mm diameter.

UPC	Part No.	Description	MAP	MSRP	Available
784695812017	81201	FT 16mm Shock Piston, 5x1.3mm, flat	\$15.30	\$17.99	September 2021
784695812024	81202	FT 16mm Shock Piston, 6x1.3mm, flat	\$15.30	\$17.99	September 2021
784695812062	81206	FT 16mm Shock Piston, 5x1.3mm, tapered	\$15.30	\$17.99	September 2021
784695812079	81207	FT 16mm Shock Piston, 6x1.3mm, tapered	\$15.30	\$17.99	September 2021
