For Immediate Release: Sept. 19, 2018

New! Reedy 550-SL4 Sensorless Brushless Motor

Reedy's new 550-SL4 is the perfect upgrade for your 1:10 4WD RTR! Due to its sensorless 4-pole configuration, the 550-SL4 operates powerfully, efficiently, and reliably in a variety of vehicles and applications.

The 3500kV rating provides plenty of speed with 2S LiPo batteries. But install a 3S LiPo battery for insane speeds that are barely controllable! A high-strength rotor provides plenty of torque and resists overheating better than 2-pole alternatives.

Flexible silicone wires ease wire routing in tight spaces and work in conjunction with 3.5mm bullet connectors to reduce power-robbing resistance and heat. Triple insulated windings, a hardened 5mm steel shaft, and oversized ball bearings enhance reliability to keep you out of the pits and on the track.

Features

- Powerful 4-pole Sensorless design
- Oversized precision ball bearings
- High-strength rotor
- Hardened steel shaft
- Triple insulated windings
- Flexible silicone wires
- Low-resistance connectors

Specifications

Cells	2-3 LiPo, 4-9 NiMH
kV rating	3500
Applications	1:10 4WD buggy, truck, SC
Dimensions	52mm x 36mm
Shaft Diameter	5.0mm
Weight	222g
Power Wires	12-gauge silicone
Connectors	3.5mm

UPC: 784695 009066	#906	Reedy 550-SL4 Sensorless Brushless Motor	\$78.99
