## NEW! Aluminum Clamping Throttle Servo Horns

Improve durability and throttle/brake feel with a new Factory Team aluminum clamping throttle servo horn! Machined from high quality 7075 aluminum and laser-etched with Factory Team branding, this aluminum steering servo horn will add peace of mind knowing there will be no DNF caused by breakage, while throttle and brake feel are improved due to the reduced flex. The clamping design also ensures a secure fit to any servo with matching spline count.

Available in 23-tooth (#1371) and 25-tooth (#1372) spline counts.

#1371 FT Aluminum Clamping Throttle Servo Horn, 23T

#1372 FT Aluminum Clamping Throttle Servo Horn, 25T

### Compatible with:

RC8B3.2, RC8T3.2, older RC8B3 and RC8T3 nitro vehicles, and other 1:8 nitro buggies with similar throttle servo horn design.
