

For Immediate Release: October 20, 2022

NEW! RC10B6.4 Factory Team Steering Rack

#91984 FT RC10B6.4 Steering Rack,
blue aluminum

#91984 Steering Rack
mounted in the RC10B6.4

In stock now! Factory Team produced a durable and high-performance steering rack upgrade for the RC10B6.4 buggy line. Machined from billet aluminum, the new design utilizes a clamping “crush tube” style ball bearing pivot that minimizes play in the steering assembly. The result is a more durable and reactive steering assembly that will allow drivers to tune the steering system responsiveness.

Features:

- Durable CNC-machined billet aluminum construction
- Factory Team blue anodized with laser etched logo
- Crush tube design for zero play and maximum precision
- 3x7x3mm bearings (4) and crush tubes (2) included
- Fits: RC10B6.4, RC10B6.4D
