For Immediate Release: October 28, 2019

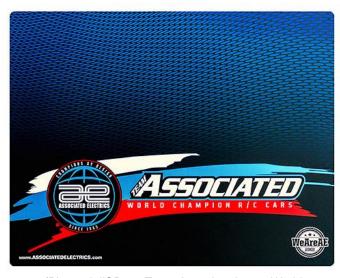

## **NEW! Four New Countertop/Setup Mats for 2019**

## Available on RC10.com!

These all-new 2019 Countertop/Setup Mats come in four branded styles: Team Associated, Reedy Power, Factory Team, and Element. The mats are 16" x 20" and provide a protective surface for countertops and RC pit tables alike. Preventing stains from nitro fuel, shock oil, dirt and grime, these mats are a great way to protect the countertops in your shop or home while creating a factory look.

They also work great as RC pit table setup boards, providing a nice flat surface for pre-race checks of ride height and camber/toe. Lightweight for easy travel to and from the racetrack.

Available from RC10.com. Buy now!
