For Immediate Release: December 1, 2017

NEW! RC28T RTR Race Truck

Everything included! Just charge and drive!

We've reduced Team Associated's classic RC10T stadium truck to small-scale size -- while keeping all the RC fun and excitement! The RC28T Race Truck allows you to drive this replica around the corners, over the jumps, and across the finish line! No wall outlet needed -- just recharge right from the transmitter.

The 1:28 scale series is Team Associated's exciting new line of products that are designed to be FUN above all else, yet are lower cost, easy to use, durable, and provide an easy way to get into the RC hobby. When great looks are combined with quality features and value pricing, it becomes the ultimate product. When all this is offered from a company like Team Associated, it's nothing short of awesome.

This box contains all required items to drive
2.4GHz transmitter with built-in charging cable

Plug in, Charge & Go!
