

For Immediate Release: March

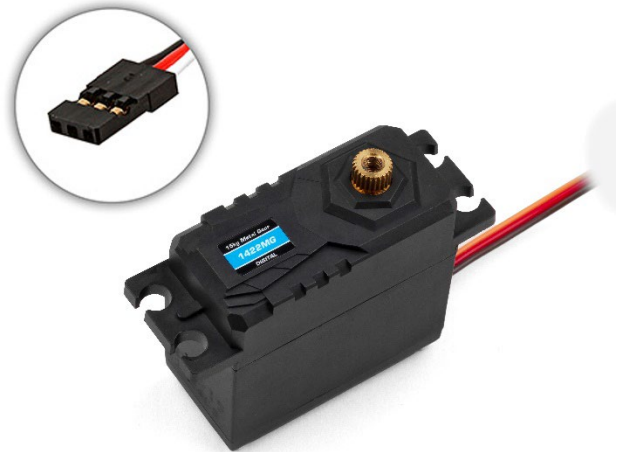

## NEW! Reedy 1422MG Metal Gear Servo

Reedy's 1422MG Metal Gear Servo, standard equipment in Team Associated's DC10 RTR Drift Car, is now available as an economical, yet high-quality upgrade, suitable for a variety of 1:10 vehicles.

An all-metal gear set is designed for strength and durability while dual precision ball bearings, a high impact injected molded case, and water-resistant construction further improve reliability and value.

### Features

- Reliable high-torque motor
- Injection molded case
- High-impact case material
- Precision metal gears
- Precision ball bearings
- Water-resistant
