

For Immediate Release: April 2025

# New FT Element RC Enduro Parts

## #42388 Enduro FT SOA Mount

Factory Team presents the FT SOA (Servo On Axle) Mount for the Enduro platform. This mount is a two-piece design that blends style with functionality. The front piece is composed of carbon fiber while the back plate is made of high-quality steel to add weight where you need it most.

Cumulative weight: 45 grams

Barcode: 784695423886

MAP: \$31.44

MSRP: \$36.99

COO: China

Compatible with: All enduro 1:10 scale solid axles

## #42390 Enduro FT steel differential cover

Factory Team enthusiastically presents the FT steel differential cover for the enduro line of vehicles. Precisely machined from steel, the FT steel differential cover ensures a snug fit and does not yield in even the toughest of conditions. This metal differential cover also boasts a substantial weight increase in a very advantageous location.

Item weight: 43 grams

Barcode: 784695423909

MAP: \$31.44

MSRP: \$36.99

COO: China
