- Advertisement of a product with a strike-through or line through the price indicating a price lower than MAP (e.g., ~~\$199.99~~)
- Internet auctions with an advertised price below MAP including reserve or "buy now" price
- Advertisements of a flat percentage off the marked price or coupons giving the holder a flat percentage off the marked price on Associated Electrics products with a MAP shall be deemed to have violated this policy if the advertised price, minus the market value of the advertised discount, is less than the Minimum Advertised Price. This includes dollar or percentage off coupon offers for a specifically mentioned Associated Electrics product.

This is a Minimum Advertised Price policy only and does not restrict, coerce, or force a retailer to charge a particular price for any Associated Electrics product.

Associated Electrics reserves the right to modify or suspend this MAP policy in whole or in part at its sole discretion.

Associated Electrics will only make our product line available to advertisers who follow our Minimum Advertised Price policy.

Violators of this MAP policy may be terminated without notice.
